Tai Chi: If you're looking for a way to reduce stress, consider tai chi (TIE-CHEE). Meditative Stretch: Enjoy a full body, restorative stretch along with the quiet Zen atmosphere of peaceful music playing in the background. You will experience various props to help facilitate a safe and effective stretch. Leave this class feeling refreshed and renewed.

Yoga Nidra: a guided sleep-based meditation technique that is done lying down. This powerful practice has the ability to slow down the mind's thinking process and therefore release stress and toxins from the body naturally. Because Nidra is among the deepest possible states of relaxation while still maintaining full consciousness, it creates a supercharged feeling of connection and well-being in the physical body as well as the mental and emotional states. The yoga Nidra class begins with light yoga postures and easy breathing techniques. The hardest thing you will have to do is not fall asleep.

Aerial Yoga (New): Experience yoga by connecting with the element of air! Aerial yoga is a combination of traditional yoga poses done on the floor and postures practiced using a soft fabric trapeze (Hammock/Sling) suspended at hip height. Aerial yoga helps you to move freely with less effort by counteracting gravity. Suspension in the air releases tension in the bones and muscles, strengthens core muscles while increasing spinal and shoulder flexibility. Leave your worries and come fly with us!
